| of P. O. Box 311, Lathrop Wells, County of Nye                                                                                           |
| State of Nevada , hereby make application for permission to appropriate the publ                                                         |
| waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation,              |
| tion; if a copartnership or association, give names of members.)                                                                         |
|                                                                                                                                          |
| 1. The source of the proposed appropriation is                                                                                           |
| Name of stream, lake or other source.                                                                                                    |
| 2. The amount of water applied for is 2.7 c.f.s. second-fee                                                                              |
| One scond-foot equals 448.83 gals, per min.                                                                                              |
| (a) If stored in reservoir give number of acre-feet acre-feet acre-feet                                                                  |
| 3. The water to be used for Irrigation & domestic  Irrigation, power, mining, manufacturing, domestic, or other use.                     |
| 4. If use is for:                                                                                                                        |
| (a) Irrigation (state number of acres to be irrigated) 160                                                                               |
| (b) Stockwater (state number and kinds of animals to be watered)                                                                         |
| (c) Other use (describe fully under "No. 11. Remarks")                                                                                   |
| (d) Power:                                                                                                                               |
| (1) Horsepower developed                                                                                                                 |
| (2) Point of return of water to stream.                                                                                                  |
| 5. The water is to be diverted from its source at the following point: NE1 NW2 Sec. 35, T. 16 S.                                         |
| Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,  |
| of said Section 35 bears N. 45° 03' E., 28.28 feet.                                                                                      |
| 6. Place of use E NW1, W2 NE1 Sec. 35, T. 16 S., R. 49 E.,                                                                               |
| Describe by legal subdivision, if on unsurveyed land it should be so stated.  M.D.B.& M.                                                 |
|                                                                                                                                          |
|                                                                                                                                          |
|                                                                                                                                          |
| 7. Use will begin about Jan. 1st and end about Dec. 31st , of each year.                                                                 |
| Month Month  8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plan                   |
| and specifications of your diversion or storage works.) Well, pump, open ditches                                                         |
|                                                                                                                                          |
| State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. |
|                                                                                                                                          |

| 9. Estimated cost of works \$12,500                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
